

# CERTIFIED FINANCIAL MARKET XPERT

*Bridging Your Market Divide..!*

## Overview

Budding college investors have a significant advantage over other types of investors. CFMX is a comprehensive program for people who want to have a career in financial market but not having knowledge that where to start from or how to make an entry into financial market.

Experienced investors state that even a small amount of money, if invested properly, can reap huge profits in the future. That means you really have to think about building your personal investment portfolio while you are still in college. Considering these factors we have designed a certified course that can help a student familiarise themselves on the world of financial markets.

## Course Coverage

1. Introduction to Capital market – a Practical approach
